Who is UTC?

The Utilities Technology Council (UTC) is a global trade association dedicated to serving critical infrastructure providers, such as electric, gas and water utilities. Through advocacy, education and collaboration, UTC creates a favorable business, regulatory and technology environment for our members who own or operate Information and Communication Technology (ICT) systems in support of their core business.

OUR MISSION

UTC shapes the future of utility mission critical technologies by driving innovation, fostering collaboration and influencing public policy.

OUR VISION

UTC is the trusted advisor to utilities and other critical infrastructure providers globally. The Council serves as the source and resource for our members to deploy technologies and solutions that deliver secure, reliable and affordable mission critical services.

WHY JOIN UTC?

We are the only association that represents all utilities and the only association that focuses on utility telecom and IT. In addition to our membership diversity, discounts and access to events, here are some of the many benefits UTC members receive:

- Access to a telecom/IT/technology market with increased spending for products and services.
- Access to our legal, regulatory, research, standards experts who can answer questions that might impact your product or service.
- Access to NetWorks, our on-line connected community for members.
- Access to the online UTC member directory.
- Listing in the online Buyer's Guide.
- Participation in monthly UTC Committees and Divisions for direct access to utilities.
- Use of the UTC Associate Member logo on your marketing throughout the year.
- 1x use of the UTC membership mailing list per membership year.
- Subscription to our weekly email newsletter, UTC Industry Intelligence, providing updates on telecom and IT issues.
- Subscription to the quarterly UTC Journal.
- Discounts to attend and exhibit at UTC educational events, as well as discounts on UTC Research reports.
- Discounts on professional development through UTC partnerships.
- Opportunities to speak at UTC conferences and submit articles to the UTC Journal.
- Opportunities to sponsor webinars and present your message to members.
- Discounted advertising rates in both UTC Journal and UTC Industry Intelligence.

INDUSTRIES WE SERVE

For more than 70 years, UTC has served critical infrastructure industries including electric, water and gas utilities around the world. We know that these industries require reliable communications to safely and efficiently deliver their critical services.

ELECTRIC

UTC enables electric utilities of all sizes and structures to collaborate and share experiences in solving the challenges that each faces. Whether the discussion is Distribution Automation, Cybersecurity, Information Technology, Shared Assets, or Telecommunications, UTC and its members empower success.

WATER

UTC has renewed its focus on water utilities and technologies in order to support these growing challenges. Water utilities are faced with the challenges of moving forward with infrastructure upgrades and new water scarcity concerns all while seeing their workforce retire.

GAS

Natural gas is becoming a greater source of energy around the globe and today more than ever UTC members are searching for resources to help answer infrastructure questions. Whether pipeline safety or smart metering, UTC is here to support the gas industry.

BOARD LEVEL COMMITTEES

The UTC Board of Directors has organized the following committees to lead focus in key industry areas. Each member organization should consider actively participating in any of the committees below:

AUDIT COMMITTEE

reviews the annual audit and presents its recommendations to the Board for action. The Audit Committee is responsible for recommending the appointment, compensation, and oversight of UTC's auditing firm. The Audit Committee shall review the annual audit and related letters and report thereon to the Board of Directors. In addition, the Audit Committee is responsible for establishing policies and procedures related to complaints regarding accounting and auditing matters. This Committee serves as the Board's contact with UTC's independent auditors.

EXECUTIVE COMMITTEE

duties and responsibilities are delegated by the Board when it is not in session. The Executive Committee comprises the Chair of the Board, UTC President and CEO, Vice-Chair, Secretary/Treasurer, and Immediate Past Chair/Past Chair.

FINANCE COMMITTEE

oversees and reviews budgets, financial reports, and financial actions of UTC. The Committee is responsible for recommending financial policies, goals, and budget development that support the mission, values, and strategic goals of the organization. The Committee reviews UTC's financial performance in relation to budget goals and strategic initiatives. The UTC Secretary/Treasurer chairs the Finance Committee.

FORWARD PLANNING COMMITTEE

chaired by the Vice-Chair of the Board. The members of this committee include all UTC Officers, and Board Designated Division, and Committee Chairs. This committee is charged with overseeing the development and implementation of UTC's Strategic Plan. The Forward Planning Committee may at their discretion invite representatives from Voting Members and Non-Voting Associate Members to participate in the process both as non-voting advisors.

GLOBAL ADVISORY COMMITTEE

primary purpose is to represent its member organizations on issues concerning deployment and implementation of utility telecommunications and technology services and applications. The GAC members are from UTC, AUTC, EUTC, and UTCAL.

LEADERSHIP ADVISORY COMMITTEE (LAC)

functions as leadership, mentoring, and technical resource for UTC. The LAC serves as an advisory body to the Board, divisions, and committees. LAC also serves as a resource for potential leaders of UTC. The LAC is made up of the current and all former Chairs of the UTC Board of Directors.

NOMINATING COMMITTEE

oversees nominations of UTC's Elected Officers, At-Large Elected Board members, and certain UTC awards. The Nominating Committee is chaired by the Immediate Past Chair/Past Chair of the Board of Directors and includes the Chair of UTC's Board of Directors, UTC's President and CEO, and three Board members selected by the Board of Directors.

TECHNOLOGY COMMITTEES

IT/OT COMMITTEE

facilitates engagement among UTC members in areas where IT and OT are converging, such as the application of IT capabilities to OT environments. Committee members share success stories and discuss current challenges in adopting new technology. The committee's deliverables include white papers, surveys, and sessions at UTC events.

KNOWLEDGE AND LEARNING COMMITTEE

provides strategic support to other UTC committees and divisions to ensure focus, the direction in developing educational programs, and disseminating industry information. The Knowledge and Learning Division assists other UTC committees to identify appropriate topics and deliverables for their coverage areas, resulting in clear and concise communication of UTC's members' experience and industry intelligence across all critical infrastructure types.

MEMBERSHIP DIVISION

is a resource for recruiting, renewing, and retaining UTC members by developing a membership engagement strategy, encouraging existing members who are excited and interested in promoting membership, and engaging in a peer-to-peer recruitment and retention campaign.

PUBLIC POLICY DIVISION

provides UTC and its staff with direction and leadership on public-policy issues. PPD meets monthly to discuss the latest in Congress, federal agencies, and the courts that impact UTC utility members. PPD members also develop and approve resolutions each year that set UTC's positions on policy matters. PPD is open to core utility members only.

REGIONAL DIVISION

represents the membership of UTC's ten geographical regions and strives to support and align with the overall mission and vision of the UTC organization, consistently throughout our regions.

SECURITY, RISK AND COMPLIANCE COMMITTEE

facilitates a member-driven conversation centered on cyber and physical security, supply chain risk, and compliance. SRCC's scope includes IT, OT, telecom, physical security, and any other systems that utilities deploy.

TELECOM COMMITTEE

focuses on specific industry-related telecom issues, which include spectrum advocacy issues, technical reviews, or thought leadership through the development of white papers, presentations, and webinars, etc.

UTILISITE COMMITTEE

focuses on opportunities for utility wireless collocation, joint use, and fiber leasing, including key areas of pole attachments and small cell communications. UtiliSite addresses both technical and regulatory issues that affect our members' ability to share resources.

UTILITIES BROADBAND COMMITTEE

promotes opportunities for utilities to provide broadband services and deploy broadband networks in unserved and underserved areas through legislative and regulatory advocacy and liaisons with other interested organizations. This committee promotes opportunities for broadband funding for utilities and enables networking with utilities on ways to provide broadband across America.
